

New harnessed robotic dress packs now available for quick replacement and installation

igus now offers standard “readychain” ready-to-use robotic dress packs for simple installation as well as multi-axis cable guidance and protection.

In automated plants and other manufacturing facilities, downtime creates a critical situation. Once production stops, every minute counts, making new standard, fully-assembled dress packs for industrial robots an ideal solution to get systems back up and running.

The standard assembled dress packs consist of triflex multi-axis cable carriers, guaranteed chainflex continuous-flex cables, hoses, and other components that can be adapted to suit the needs of each customer’s individual needs. “The growing need for retrofit solutions in existing plants gave us the idea to develop and offer standardized dress packs for robots,” explains Dale Rheume, product manager for readychain harnessed systems at igus.

Complete, quick retrofitting of industrial welding robots

To suit the needs of all robotic systems, igus pre-harnessed dress packs are available with optional connectors harnessed to more than 20 manufacturer standards with original plug connectors, dress pack retraction systems, and on-site installation and inspection services. The online QuickRobot tool is also available to configure your custom robotic solution from over 2,000 available options with just a few clicks. Try the QuickRobot at www.igus.com/quickrobot-online, or learn more about igus robotic solutions at www.igus.com/robotics.

About igus®

igus® develops industry-leading energy chain® cable carriers, chainflex® continuous-flex cables, drylin® linear bearings and linear guides, iglide® plastic bushings, and igubal® spherical bearings. These seemingly unrelated products are linked together through a belief in making functionally advanced, yet affordable plastic components and assemblies. With plastic bearing experience since 1964, cable carrier experience since 1971 and continuous-flex cables since 1989, igus provides the right solution from over 100,000 products available from stock. No minimum order required. For more information, contact igus at 1-800-521-2747 or visit www.igus.com.
